

MediPro Staff Guide

v1.1.34 · Bimal Tech Solution · Pharmacy Counter Training · नेपाली + English

Important: Posted invoices cannot be cancelled. Use **Process Return** to correct completed sales.

Topic	Where
Login / OTP	First launch
Dashboard	Tab: Dashboard
Medicine search	Sales / Purchase / Inventory / Global Search
Purchase	Tab: Purchase
Sale + Batch picker	Tab: Sales
Barcode	Scan icon
Return	History / Invoice → Process Return
Adjustment	Tab: Inventory
Reports	Tab: Reports + Accounting
Backup / Restore	Settings
Help (in-app)	Drawer → Help (offline + search)

१. App Login / OTP

1. Mobile → OTP → Pharmacy details → Activate.
2. App Lock PIN optional.

२. Dashboard

1. Sales/stock summary, alerts, recent activity.

३. Medicine Search

1. Brand, generic, barcode. Global Search in top bar.

४. Purchase

1. Batch, expiry, qty, cost, supplier. OCR optional. Confirm → stock.

५. Sales

1. Cart → payment → Complete Sale → invoice PDF/print.

६. Batch Selection (FEFO)

1. Multiple batches → Select Batch dialog (expiry order). Auto FEFO available.

७. Barcode Scan

1. Sales: FEFO auto. Purchase: add line. Camera permission required.

८. Sales Return

1. Process Return — stock + payment + ledger reverse. No cancel on posted invoice.

९. Stock Adjustment

1. Expired, Damage, Lost, Physical Count. Reason required.

१०. Reports

1. Reports tab + Accounting (Day Closing, ledger, receipts).

११. Backup

1. Settings → password → Create Backup (.medipro encrypted).

१२. Restore

1. Select file + password. Overwrites data — backup first!

१३. About

1. Settings → About Us, App Information (version, Device ID).
